

## After the Flush: A New Technology Is Now Available to Modernize Wastewater Lift Stations

---

By Jon Dunham

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.To the municipalities and operators whose NPDES licenses are on the line to be in compliance with EPA Regulations and the Clean Water Act laws. To the neighborhoods that have lived long enough with the odors produced by the daily collection of raw sewage in a wet well lift station nearby. To the city managers and / or the operations managers of the POWT s (Publicly Owned Waste Treatment) plants who are trying to control costs and stay within budget every day. To the Wastewater Collection Managers who work hard to maintain the sewage lines and the lift stations, cleaning them of trash and debris (sometimes daily), and pull, unclog, and reset pumps. There is a new technology in pumping wastewater and it will make life easier for the operators, the maintenance people, the city management, the users and the neighborhoods. It will cost less to operate, is self-cleaning with less to no clogs, and can be operated and managed from an office, a laptop, or a smart phone.
