Leading watercolourist reveals the secrets behind his atmospheric, light-filled paintings. Watercolour is ideal for capturing the transient effects of light and, with compact and lightweight materials, is the perfect medium for plein-air painting. Leading watercolour painter David Curtis is a strong advocate of working on site, observing and capturing changing conditions and effects. In this beautifully illustrated book, he explains in detail his two main methods for working on location - for quick, loose studies and for more controlled and detailed paintings. He also shows how to collect reference material on the spot and develop this into resolved paintings back at the studio. He provides helpful instruction on interpreting light effects, with strong guidance on choosing materials, exploring techniques, composition, tone and colour and associated topics.
