More to Life Publishing. Paperback. Book Condition: New. Paperback. 302 pages. Dimensions: 7.9in. x 5.3in. x 0.4in. Are you looking for an introduction to self-help that can be read and understood by anyone—even people with a rational, materialistic outlook on life? If so, this book offers a universal approach to personal growth that will help you understand how it is possible to systematically improve your life. Many people literally live their lives as slaves of their own subconscious computers and have no awareness that they are functioning like biological robots. This is followed by an action plan for taking a systematic approach to personal growth, an approach that will produce the results that the feel-good self-help book always promise and always fail to deliver. The second part of the...
