CRC Press, 2014. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "This handbook provides a comprehensive collection of best practices; all of which are compliant with the federal guidelines and requirements. The sections labeled "regulatory" have been reviewed by staff at NIH Office of Laboratory Animal Welfare (OLAW) and USDA APHIS/Animal Care (AC) for consistency and compliance with the PHS Policy and the USDA Animal Welfare Act Regulations (AWAR). The best practices presented were developed by conscientious IACUCs and research teams from academia, industry, the private and public sectors, and institutions of various sizes. Answers to a series of operational, policy, and management questions are first addressed from the perspective of the applicable regulatory language, followed by opinions from knowledgeable and experienced professionals in the field, and in some cases ultimately followed by responses to informal surveys on selected institutional policies and practices. Every effort has been made to apply correct interpretations within the context of the specific issues being discussed. . For the experienced reader and novice alike, this book provides a wealth of useful information and insight into the collective experience and wisdom of the numerous expert editors and authors. Both NIH/OLAW and APHIS/AC commend the authors and editors for their outstanding efforts and for moving the biomedical research community forward in its formulation of best practices and commonly accepted professional guidance in this complex arena." --From the Introduction by Dr. Patricia A. Brown, Director of the Office of Laboratory Animal Welfare Dr. Chester A. Gipson, Deputy Administrator USDA/APHIS/Animal Care "The IACUC Handbook is an interesting interactive handbook with a unique format that introduces a complex subject of rules, policy, and guidelines for an animal care program and the committee given the task of oversight of that program and offers interpretation into...
