

Federal Downsizing: The Costs and Savings of Buyouts Versus Reductions-In-Force: Ggd-96-63

Filesize: 4.8 MB

Reviews

Unquestionably, this is actually the very best work by any article writer. It usually does not price a lot of. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Augustine Pfannerstill)

FEDERAL DOWNSIZING: THE COSTS AND SAVINGS OF BUYOUTS VERSUS REDUCTIONS-IN-FORCE: GGD-96-63

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Pursuant to a congressional request, GAO reviewed federal workforce downsizing, focusing on the projected costs and savings from federal workforce buyouts and reductions-in-force (RIF) over a 5-year period. GAO found that: (1) employee buyouts could produce over \$60,000 more in net savings over 5 years than RIF for each vacated position because buyouts can be used at higher grade levels that generate more savings in salaries and benefits when downsized; (2) if federal agencies separate retirement-eligible employees who do not displace lower-grade employees, RIF could produce about \$29,000 more in net savings over 5 years than buyouts; (3) displacing employees in the same competitive areas but lower-tenure groups or with less service within the same tenure groups reduces RIF savings because those savings represent the salaries and benefits of lower-grade employees; (4) savings from buyouts or RIF could be reduced if the vacated positions are refilled or privatized; (5) federal agencies may need more buyouts than RIF to achieve their downsizing targets because normal attrition slows prior to buyouts; (6) buyouts avoid or reduce the non-economic adverse effects of RIF, such as reduced diversity, decreased productivity, and lower morale; and (7) buyouts may help federal agencies improve diversity, since buyouts typically affect older white males.
