He: ? presents a scientific view of the creation of the universe, describing the formation and evolution of the solar system; ? explains the evolution of our home world through four and a half billion years, including the evolution of humanity; ? describes how wild places are in serious decline and the adverse affect it has on indigenous wild life; ? addresses how we are controlled by our social order, which directly affects the choices we make with respect to the environment; ? discusses the modalities that helped turn his life around, making him more aware and conscious of every aspect of living; ? reviews some of the possible outcomes based on today s choices; an ? offers a new concept of how to relate to Earth-Mother.
